~~road.~~*

Encl to D.O 28-18-2

Letter No.1253 dated Kolar the 29/30th August 1918 from the Executive Engineer, Kolar Division, to the President, District Board, Kolar.

I have the honour to forward a list showing the present and proposed grant required for the District Fund Roads for the year 1919-20 for favour of the approval of the Board. The present allotments are quite disproportionate and as the motor traffic has been increasing and roads are expected by motorists to be kept in an efficient condition always, it is necessary to increase the allotments.

The cost of labour and materials has also been on the increase and unless the allotments are increased, the quantity of work turned out will naturally be reduced as rates will have to be increased.

The Mulbagal Goribidnur Road is an important Road in this District, ~~connecting~~ ^{connecting} five Taluk Head Quarters out of 11 and is the longest District Fund ~~Road~~ ^{Road} in this District. It was once proposed to request Government to take this up as a Provincial Road and the amount saved could then have been made available for increasing the poor allotments of the other roads.

Since Government do not seem to be in favour of the proposal and as this road has heavy traffic, it is essential to increase the allotment of this road from Rs.100/- to at least Rs.150/- per mile. This will increase the budget grant by Rs.4,150/-. The other roads selected now for increase of allotments are made of small lengths but quite important and to keep them in an efficient condition it is essential to raise the allotments so that the roads may be improved every year in sections.

The excess on the six small roads selected will be Rs.1505/- The Taluk of Sidlaghatta is badly supplied by roads and it is essential that the roads from and to Sidlaghatta should be improved. An estimate for improving the Sidlaghatta Dibburhalli road is sanctioned and the work is in progress. To keep down estimate cost all

collection of metal and gravel is omitted in the Estimate and it is proposed to do this by patches from A.R. Grant. The present allotment of Rs.50/- per mile is very poor and as good gravel is ---- available along this road. the allotment is raised to Rs.100/- per mile. The excess in this case is only Rs.650/-

No provision is made for any special estimate for any of the roads and it is hoped with the increased allotments the road can be improved every year.

The matter, I request may kindly be placed on the 18th September 1918 before the Board and decision intimated to enable --- necessary provisions being made in next year's District Board budget.
